\$4.5M portfolio led **10-person** research team built from the ground up **AMIA**-published annotation methodology authored

Physician → Program Manager

Physician-turned-healthcare Program Manager with 7+ years spanning bedside clinical care, clinical operations, public health, and federally funded research administration. Since transitioning out of direct patient care, built and now leads a 10-person multidisciplinary research team at Yale University from the ground up — recruiting, onboarding, and developing postdoctoral researchers, a research associate, and rotation students into a fully functioning unit sustaining a \$4.5M NIH/PCORI portfolio. Authored the annotation methodology underpinning a published AMIA benchmark, personally closed a consent-and-recruitment gap on an active R01 study, and now governs financial, regulatory, and cross-institutional operations across four partner sites. Combines clinical judgment earned through years of direct patient care with operational rigor built through standing up research infrastructure from scratch.

PROFESSIONAL EXPERIENCE

Program Manager

Nov 2024–Present

Yale University

- Steers grant and financial operations across the EPPC and PVminer initiatives totaling \$4.5M, sustaining a 100% on-time record for all budget and sponsor reporting deadlines over two consecutive years.
- Assembles and delivers 8 formal sponsor reports annually, including NIH RPPRs and semiannual PCORI progress reports.
- Coordinates and manages Outlook calendars for the Principal Investigator and postdoctoral researchers, keeping recurring stakeholder and team meetings conflict-free.
- Recruited, onboarded, and mentors a core research team of 10 built from the ground up — seven postdoctoral researchers, one research associate, one PhD rotation student, and one intern.
- Drafted the IRB-aligned informed consent form and compiled IRB submission materials, including a Qualtrics survey, supporting protocol approval for the EPPC R01 study.
- Personally secured informed consent from and enrolled 40 patients within 4–5 weeks for the EPPC R01 study, closing the consent-and-recruitment gap on the research team.
- Facilitates 50+ recurring stakeholder meetings over 18 months with a 9-member Community Advisory Board, recording and distributing meeting minutes, and serves as central liaison across Yale, Cleveland Clinic, VHA, and TXACC.
- Spearheaded 70–75% of the annotation underpinning the EPPC project, manually annotating 3,500+ patient messages (~10,000 sentences); authored the RIAS-grounded annotation guidelines and codebook.
- Prepared structured datasets underpinning 7 peer-reviewed and preprint publications in 2026, including two accepted at Scientific Reports (Springer Nature) and Nature Digital Public Health.

Quality Assurance and Compliance Manager

Oct 2024–Jan 2025

Quality Staffing Home Care Inc.

- Ran core office operations using SharePoint and MS Forms to schedule appointments, coordinate calendars, and manage correspondence for leadership.
- Processed biweekly payroll for 50+ employees across administrative and caregiver departments, delivering on-time pay across 10 consecutive pay cycles.
- Oversaw licensing and grant applications for the agency and its training school, maintaining full regulatory compliance, and kept AxisCare/Alora records continuously audit-ready.

Health and Recreation Service Administrator

Mar 2023–May 2024

David A. Beckerman Recreation Center

- Served as principal liaison for members, guests, and visitors, boosting customer satisfaction by 25%.
- Directed facility operations, fitness areas, and event setups with zero operational errors; hired and trained staff, lifting team efficiency by 30%.
- Awarded Employee of the Year (2024) for leadership and commitment to community health initiatives.

Public Health Research Intern

Jun–Aug 2023

Connecticut State Department of Public Health · Office of Health Equity

- Revamped the Office of Health Equity website and assessed agency-wide compliance with race, ethnicity, and language (REL) standards under Public Act 21-35.
- Established standardized data collection procedures and MS Forms-based assessment tracking.

Quality and Compliance Analyst

Dec 2021–Aug 2022

Vasta Bioinformatics Pvt. Ltd.

- Audited GI cancer research cases for the Dana-Farber Cancer Institute, ensuring accurate data collection and improved data quality.
- Delivered actionable feedback to abstractors within 24 hours and rolled out corrective action plans and retraining sessions.

Public Health Physician

Aug 2020–Dec 2021

Nesco Jumbo Covid Center

- Conducted 100+ patient rounds, monitoring vitals, radiography, EKGs, and laboratory results.
- Performed emergency procedures including CPR and catheterization, administering medications under HIPAA-compliant protocols and SOPs.

Inventurus Knowledge Solutions Pvt. Ltd. (IKS Care, aligned with Advocate Health)

- Embedded as lead medical scribe for 10+ physicians across Internal Medicine, Family Medicine, Urgent Care, Neurology, and Endocrinology, including dedicated scribing for the health system's chief physician.
- Sustained 100% documentation precision with a turnaround time under 5 minutes per note; built onboarding that cut training time by 30% and lifted customer satisfaction by 20%.

St. George's Hospital & Podar Hospital

- Handled outpatient departments managing 80–100 daily patient inflow and emergency casualties, performing suturing, wound dressing, and minor-fracture care.
- Rotated through clinical rounds for 250+ hospitalized patients across Medicine, Surgery, Ob-Gyn, Ophthalmology, Pediatrics, and Panchakarma.

EDUCATION

Master of Public Health

University of New Haven · 2022–2024
GPA 3.96 · Global Health certificate

Bachelor of Ayurvedic Medicine & Surgery

R. A. Podar Medical College · 2013–2019
1st rank · 70.27%

CERTIFICATIONS & SERVICE

Good Clinical Practice · NIDA · Valid through Aug 2027
CITI Biomedical Research & Human Subjects Protection
Annual HIPAA Refresher Certification
Emergency Management · FEMA

SELECTED PUBLICATIONS (FODEH LAB, YALE) · 2026

EPPC (Electronic Patient-Provider Communication)

EPPCMinerBen — Published, AMIA. The first benchmark purpose-built to evaluate large language models on real electronic patient–provider communication via the patient portal. AMIA, 2026.

TAB-PO — Preprint. Proposes a token-level adaptive barrier for preference optimization. arXiv:2603.00025, 2026.

STaR-DRO — Preprint. Introduces stateful Tsallis reweighting for group-robust structured prediction. arXiv:2604.09737, 2026.

EPPC-OASIS — Preprint. Ontology-aware adaptation and structured inference refinement for mining electronic patient-provider communication. arXiv:2605.24172, 2026.

PVminer (Patient Voice)

PVminer — Accepted, Scientific Reports (Springer Nature). A domain-specific tool for detecting patient voice in patient-generated data. 2026.

PVminerLLM — Accepted, Nature Digital Public Health. Structured extraction of patient voice from patient-generated text using large language models. 2026.

PVminerLLM2 — Preprint. Extends PVminerLLM with preference optimization to further improve structured extraction accuracy. arXiv:2606.16074, 2026.

CORE COMPETENCIES

Team building & development: End-to-end team construction, onboarding architecture, performance coaching, succession-ready training design

Research program execution: Multi-site protocol implementation, annotation methodology design, participant enrollment strategy, SOP authorship

Regulatory & compliance leadership: IRB protocol development, informed consent design, HIPAA-governed data handling, audit preparation

Grant & fiscal oversight: Multi-award budget architecture, federal sponsor reporting (NIH/PCORI), subaward governance

Institutional & external governance: Advisory board facilitation, multi-institutional partnership management, publication support

Data systems & analytics: REDCap, Epic, OnCore, Power BI, R, EHR documentation standards
